

PROFIL.DECOR sono elementi architettonici in polistirolo espanso autoestinguente ad alta densità con rivestimento superficiale, in resine elastomeriche, per la decorazione delle facciate o per uso interno.

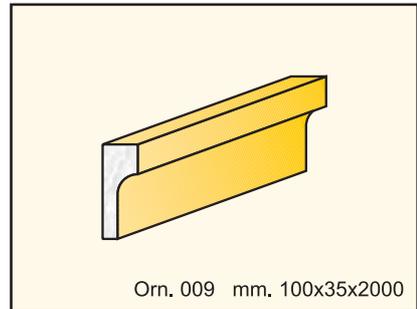

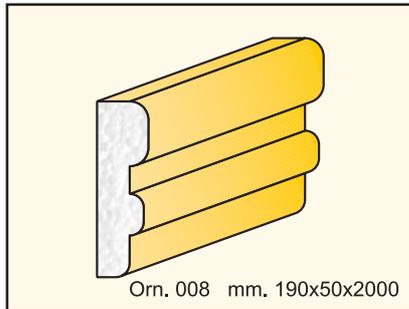

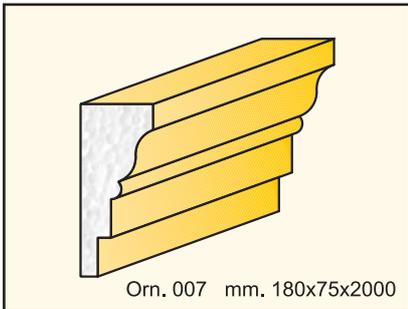

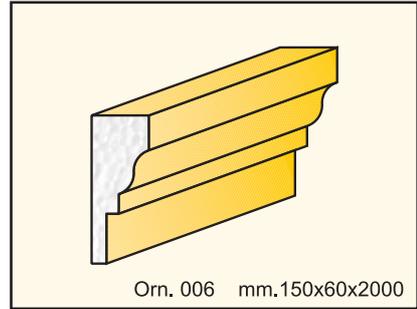

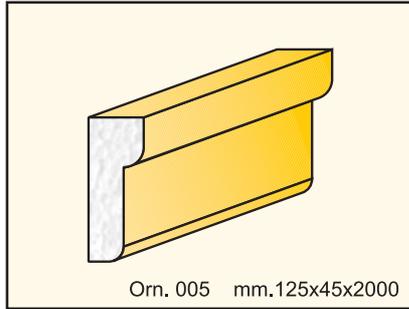

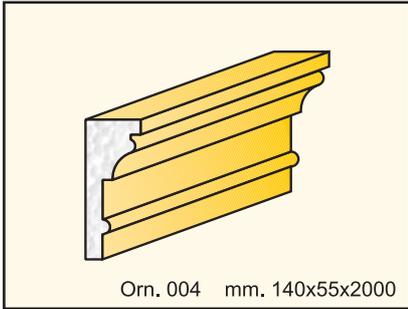

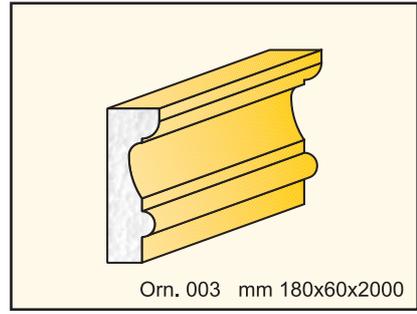

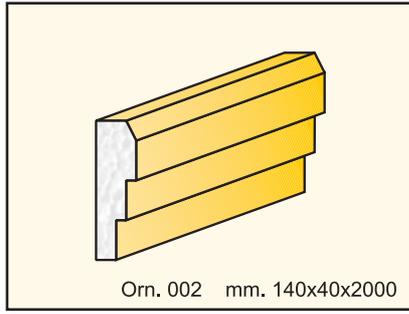

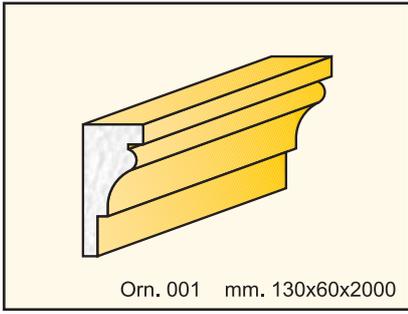

PROFIL.DECOR sono realizzati in polistirolo espanso con rivestimento sulla parte sagomata a vista, garantendo una elevata resistenza e flessione, ed una durabilità nel tempo pari ad un comune manufatto in cemento.

I profili architettonici PROFIL.DECOR sono:

Leggeri, durevoli, adattabili a qualsiasi superficie, facili da installare, realizzabili su disegno del cliente, riproducendo qualsiasi profilo liscio o decorato, architravi, mensole per balconi, ornie, marcapiani, architravi, basi e capitelli di colonne, etc.
